

# NiceLabel Pro – tailored label design

051790

NiceLabel Pro is the full version for professional label design. The high print quality, full database support and comprehensive integration options make the software an utterly convincing proposition. The extensive range of functions and modules mean that NiceLabel Pro is a particularly user-friendly solution for all labeling and identification requirements.

NiceLabel Pro:  
Optimum database support provides the user with real support for their product labeling tasks

## Powerful features as part of the package

The wizards in NiceLabel Pro allow you to design labels in no time. You can combine anything you need just where you need it: Windows fonts, printer fonts, drawing elements or graphic files. The windows-style design tools allow you to design your labels using a wide range of variable fields for prices, barcodes and serial numbers as well as for date and timestamps. But that's not all: NiceLabel Pro even allows you to insert long, database-generated texts quickly, simply and efficiently.

### Support for barcodes and compliance labeling

NiceLabel supports all barcodes in common use in industry, including 2D barcodes, and is ideal for any field of application - even rising to the sector-specific challenges of the automotive or chemical industries. The software includes preformatted templates with the associated barcodes and supports all current labeling

standards as well as the new RFID technologies, all of which makes it fit to face the future demands of compliance labeling.

### NiceLabel Pro features:

- ✓ Perfect database connectivity including a wide range of special functions such as individually controllable data flow using Visual Basic
- ✓ Standard support for text files, general databases and ODBC drivers
- ✓ Compatibility with all programs thanks to job files and command line options as well as ActiveX programming interfaces
- ✓ Security provided by password protection and additional login files
- ✓ Top print quality with NiceDriver from Avery Dennison

# NiceLabel Pro – at a glance

Supported barcodes and 2D symbologies:	EAN 13, EAN 14, EAN 8, UPC-A, UPC-E, EAN/UPC barcodes with add-ons, interleaved 2 of 5, Code 39 (normal, full ASCII, Tri-Optic), Code 93, Code128 (A, B, C), Postnet (32, 37, 52, 62), Codabar, Bookland, MSI, Pharmacode, RSS (linear and composite), SSCC, UCC.EAN 128, ITF 14, ITF 16, Kix, HIBC, PDF-417, DataMatrix, MaxiCode, Aztec, QR, Codablock F, 2D Pharmacode, MicroPDF
External data sources:	Text (ASCII) documents, BDE (dBase, Paradox) and SQL Links database drivers, ODBC and OLE DB database drivers (Excel, Access, Oracle, Microsoft SQL Server and others), DDE, ActiveX (automation), command line, command file,
Printers:	All printers with Windows drivers on-site thermal printer support using high-performance NiceDrivers: Argox, Avery Dennison, Blazeprint, CAB, Century, Citizen, Cognitive, Compuprint, Comtec, Datamax, Eltron, EPC, Etimark, Exttech, Facit, Genicom, GOD BM, IBM, ILS, Imaje, Intermec, Italaria, Lapis, Markem, Markpoint, Meto, MPH, Novexx, Printronix, QLS, Ring, Sartorius, SATO, TEC, Tharo, TSC, UBI, Unimark, Zebra etc.
Graphics formats:	BMP, CUR, DIB, EMF, FAX, G3F, G3N, GIF, ICB, ICO, J2K, JP2, JPC, JPE, JPEG, JPG, PCX, PNG, PXM, RLE, TARGA, TGA, TIF, TIFF, VDA, VST, WMF
Program languages:	Chinese (simplified), Chinese (traditional), Croatian, Danish, Dutch, English, Finnish, French, German, Hebrew, Hungarian, Italian, Japanese, Lithuanian, Polish, Russian, Slovakian, Slovenian, Spanish, Swedish, Thai, Ukrainian
System requirements:	Pentium-based computer with at least 32 MB RAM, 32-bit Windows operating system (9x, Me, NT, 2000, XP, 2003), 15 through 90 MB free hard disk space (depending on the version used and the options selected)

The name Avery Dennison is associated worldwide with perfect labeling. In addition to software, we also offer hardware, consumables and service.

## NiceLabel Pro is available in the following versions:

- NiceLabel Pro
- NiceLabel Print Only
